MODE: WIDESWATH, VV

RESOLUTION: 50 METER

IMAGE DATE/TIME: 06/07/11 1626Z (1126 CDT)

Legend

-  Possible Oil
-  False-Positives (not oil)
-  Center Point of Oil Slick:
[27°58'16" N / 96°21'23" W]

REMARKS: Suspected oil slick located approximately 48 miles south-southeast of Port Lavaca, TX. This slick is 3.5 miles long and 0.5 miles wide and appears to have originated from the northeast where the slick is the thinnest and has spreaded out in the southwest direction. There is no point source that can be directly tied to the suspected slick but there are many oil platforms in the vicinity.
